AN IMPORTANT NOTE FOR YOUR DIARY

Dear **Warrior**, my name is Muz Azar and I want to thank you for downloading this special Edu Link Packet. This is a sample of my upcoming WSO where you will get **15 High Quality .EDU Backlinks** every month!

This might not sound like much, but considering that you will be lucky to get 1 EDU per 2 months with other backlink providers, you can appreciate that they are extremely hard to come by, and with that are extremely desirable for more serious SEO.

<http://www.muzseo.com/Warriors/free-edu-links.html>

EDU backlinks have long been a major tool used by the big time SEO firms who work to get their clients on the first page for keywords with tens to hundreds of thousands of searches a month.

Why?

Because **Google loves educational and governmental domains** like .EDU and .GOV. I discuss this in depth in the accompanying pdf to this packet called '**The SEO Power of EDU links**' which I strongly recommend you read.

But consider that you will find most backlink providers who sell a single EDU backlink for **\$10-15 EACH!**

Why so expensive? Well website owners know of the EDUs potent effect on the search engine rankings, and so are willing to shell out big bucks to lure in a much larger return in future.

All Internet Marketers will want to get their website to the number #1 spot in Google for competitive keywords and don't want to build thousands of links for the pleasure.

Reaching Position 1 on Google can be achieved with only a handful EDU links, but most IM'ers don't have \$119 for 7 EDU links a month.

<http://www.muzseo.com/Warriors/free-edu-links.html>

And I will be affordable to all Internet Marketers as I will be heavily undercutting the current market prices for EDU links.

Of course you always get people giving away thousands of links for really low prices, or for free but as they say '**you get what you pay for**'.

Most of those free links will be no follow, or moderated or just from junk PageRank websites which have been spammed to death. All my sites have been painstakingly gathered to find the finest EDU backlinks on the web with high pagerank and long long stick rates.

Also, access to these links is strictly limited to the first few who subscribe, as I am sure you have found that the more people using a particular link packet, the less valuable that packet becomes.

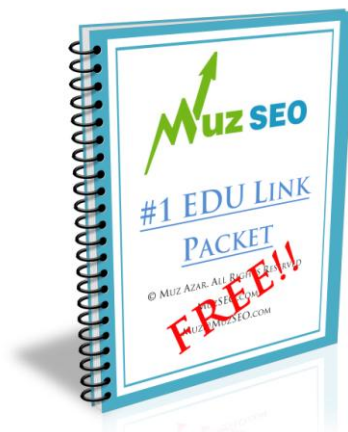

Also, access to these links is strictly limited to the first few who subscribe, as I am sure you have found that the more people using a particular link packet, the less valuable that packet becomes.

But anyway, be sure to **keep an eye-out** for emails from MuzSEO@gmail.com as I'll be sending news of the release date for this product which is shaping up to be one of the most exciting WSOs of the new year.

To Our Shared Success

THE LINKS:

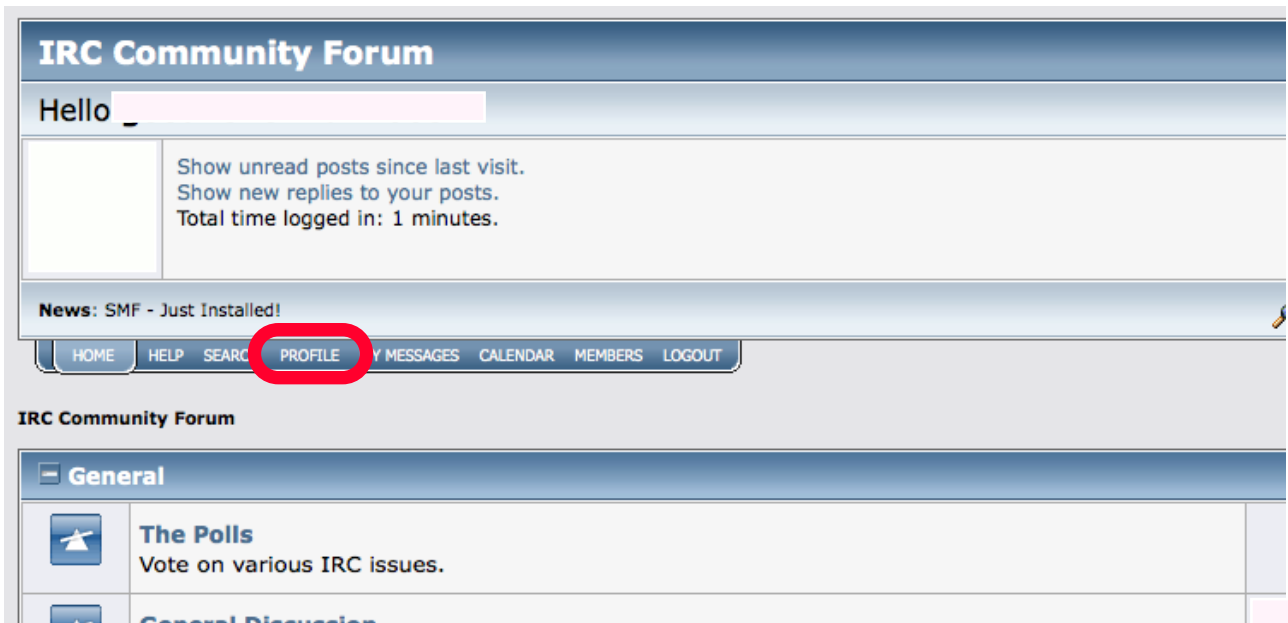

Hi, I just wanted to add that at the time of making this sample (**19th Feb 2010**) all of these links worked. As this is a free sample available to everyone who signed up, it is possible that 1 or 2 of the links may not work due to overuse.

I apologise for this in advance, but please note that when you receive the official EDU link packet in my upcoming WSO, only **50 people** at any one time will get the same links. This will effectively prevent forum or blog bombardment, and maximise link building stealth.
